

Network Manager
nominated by
the European Commission

Classroom Training

Besides E-learning, the Network Manager Operations Centre also provides traditional classroom training:

CHMI COURSES

Practical training for the Collaboration Human Machine Interface.

NETWORK OPERATIONS PORTAL COURSE

Practical training for the Network Operations Portal.

FMP COURSES

Modular training for Flow Management Personnel, which is a blend of classroom training and E-learning.

IFPS COURSE

Theoretical and practical training for the Integrated Initial Flight Plan Processing System, which is a blend of classroom training and E-learning.

ATFCM COURSE FOR AOs

ATFCM training mainly focusing on the operational processes for aircraft operators.

Network Operations Training

The role of the EUROCONTROL Network Manager Operations Centre is to optimise European network capacity and its subsequent utilisation in a cost-effective way.

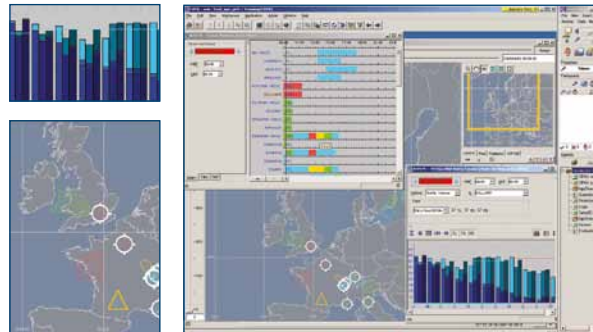

This demands a high level of knowledge, not only from the EUROCONTROL staff but also from all their partners, both in the ATC and airline communities.

The commitment to the Collaborative Decision-Making process also requires a shared high knowledge base amongst participants in order to be successful.

The use of Internet technology through **E-learning** and **E-conferencing** is an important enabler to meet the challenge of the ever-growing demand for training and collaboration within the Air Traffic Flow and Capacity Management (ATFCM) concept.

E-learning through Virtual Classroom

- Instructor-led training online
- Free of charge

TAILOR-MADE COURSE

Network Operations Portal (NOP) or CHMI on-line training customised for your company.

INTRODUCTION TO NETWORK OPERATIONS PORTAL AND CHMI

On-line training for a basic use of the Network Operations Plan Portal and Collaboration Human Machine Interface.

▶ ▶ Equipment needed

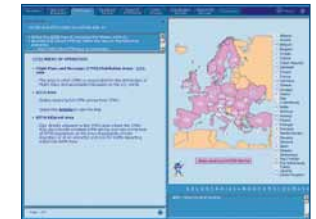

- PC with soundcard
- Internet connection
- Headset

E-learning through Web Based Training (WBT)

- Network Operations related WBT packages
- Free online registration

INTRODUCTION TO NETWORK OPERATIONS

WBT modules, which give an overview of European ATFCM and Flight Planning.

TWR REFRESHER TRAINING

Repository of WBT modules related to ATFCM tasks carried out by TWR staff.

AO REFRESHER TRAINING

Repository of WBT modules related to ATFCM and Flight Planning tasks carried out by AO ops staff.

FMP REFRESHER TRAINING

Repository of WBT modules related to ATFCM tasks carried out by FMP staff.

AMC REFRESHER TRAINING

Repository of Network Operations WBT modules relevant to AMC staff

▶ ▶ Equipment needed

- Internet Explorer with Flash plug-in
